PROFILE

BTech graduate in Electronics and Computer Engineering with a strong foundation in modern web development, programming, and real-world project implementation. Skilled in developing interactive web applications using JavaScript and ReactJS and integrating them with hardware systems. Experienced in building responsive user interfaces and working in cross-functional teams to deliver practical, real-world technology solutions involving both software and electronics.

Professional Experience

Software Developer Intern, *Apps Team Technologies Pvt Ltd* 07/2026 – 08/2026
Ernakulam, Kerala

- Worked on client websites using Angular and React, working with Angular Material and TypeScript.
- Gained hands-on experience in an onsite professional software development environment and real-world development workflows.

EDUCATION

B.Tech in Electronics and Computer Engineering, 2022 – 2026
St. Joseph's College of Engineering and Technology, Palai

Grade XII, *De Paul Public School, Thodupuzha* 2020 – 2022

- Boards: 77.8%

Grade X, *Chinmaya Vidyalaya, Kannur* 2019 – 2020

- Boards: 92.2%

SKILLS

Languages
Python, HTML5, CSS, JavaScript, SQL

Frameworks/Libraries
ReactJS, NodeJS, Angular, Tailwind CSS

Tools
VS Code, Git, GitHub, Google Colab, Postman, MongoDB, GitHub Copilot

PROJECTS

M.A.P.A.S (Multipurpose Autonomous and Piloted Aircraft System)

- A dual drone system powered by Nvidia Jetson Nano capable of performing multiple tasks including disaster monitoring, food/logistics delivery, public announcement system etc. Engineered a high-speed FastAPI/WebSocket bridge to sync onboard telemetry with a professional dashboard built using ReactJS and CSS for emergency rescue and logistics. Focused on responsive state management to update visual telemetry widgets instantly while using MongoDB to store and manage application data.

Wireless 2D Plotter

- Developed a Wi-Fi-enabled 2D plotter that converts images or text into G-code via a web interface built and designed using HTML, CSS, JavaScript and WebSockets for real-time communication, with Arduino-based motor control for precise plotting.

CERTIFICATIONS

Elements of AI, *University of Helsinki* 06/2026

Web Development Fundamentals, *IBM SkillsBuild* 06/2026

Deloitte Data Analytics Job Simulation, *Forage* 06/2026

Cloud Computing, *IIT Kharagpur NPTEL* 07/2024

- MOOC Course
